

# **Andrew Hannam**

#### **Mediator since 2004**

## Specialist areas: clinical negligence, mental capacity

Andrew's mediation experience covers a wide range of topics including disputes on the following:

Medical issues

Mental Capacity Issues

Commercial/agency

Contested probate

"Andrew Hannam was friendly, approachable and collaborative. In respect of his level of preparation and grasp of issues, his legal and subject expertise and sensitivity to personalities involved in the mediation I was very satisfied" Bethan Parry Graystons Solicitors

"Andrew Hannam was extremely polite and approachable, dealt with the issues sensibly and tactfully, kept the negotiations as amicable as possible, clearly had a good understanding of the case and was respectful and empathetic towards the client. He somehow managed to keep the atmosphere in the room positive and light whilst managing to deal with a difficult and potentially very stressful situation for everyone involved." Helena Wood Hudgells Solicitors

As Chairman and current committee member of the Association of South West Mediators (ASWM), Andrew demonstrates his commitment to mediation as a valuable method of dispute resolution for the whole community.

Mediations in which Andrew has been involved include several highly emotional still birth claims and a very large 2 day Group Action in which Andrew was the lead solicitor for a group of 176 vulnerable adults who had been subject to a wide range of abuse. The mediation identified a template that allowed a structured approach to the settlement of the cases which approach was acknowledged by the court in the approval hearing as novel and one that saved considerable cost and time.

Over the last 3 years Andrew has mediated approximately 50 clinical negligence cases ranging from multi-million pound birth injury cases to modest value (but of huge importance to the claimant) fatal claims. Andrew's rate of settlement on the3 day or within a few weeks of the mediation runs in excess of 80%.

Andrew maintains good working relations with local NHS Trusts and panel NHSLA firms reflecting an ability to work constructively with other parties in disputes. AJH represents a local Community NHS Trust in Inquests which provides the opportunity to work with clinical staff which otherwise would not exist in a claimant dominated clinical negligence practice.

Andrew has regularly given training both within his firm and outside on mediation through his position with Trust Mediation and ASWM. Excellent oral and written communication skills are part of his package used to help resolve disputes. When not mediating, Andrew has been advising over a number of years in a wide range of clinical negligence actions, with complex and high value birth injury claims comprising the majority of Andrew's caseload over recent years. In addition Andrew has acted as lead solicitor in two very large and high profile Group Actions (Cornwall Partnership NHS Trust and Winterbourne View)
